membrane microdomain

membrane raft

	collagen-containing extracellular matrix			
ion channel complex transmembrane transporter complex				
	adher	ens junction	actin cytoskeleton	
transporter complex				
plasma membrane protein complex				
	an abaring irrection		cell-surface	
	anchoring junction cell=	cell junction		
integral component of plasma membrane				
intringia gampanant affilianna mambrana			glial cell projection	
intrinsic component of plasma membrane	tight junction	cell_cell co	ontact zone	
	apical junction com	plex	Shidel Zone	
	bicellular tight junction			number of genes
		intercala	ited disc	<ul><li>25</li><li>50</li></ul>
extracellular vesicle			anchored component of membrane	75
distal axon	apicolateral plasma	a membrane		100
extracellular exosome	apidolatoral pidolili		extrinsic component of plasma membrane	p.adjust
extracellular organelle				piadjact
				0.002
axon	lateral	plasma membrane		0.004
	1000000			0.006
			apical part of cell	
			apical plasma membrane	
presy	naptic active zone		basal part of cell	
neuron spine			basar part of cen	
postsynapse			basolateral plasma membrane	
dendritic spine			basal plasma membrane	
asymmetric synapse synaptic membrane	,	cell projec <u>tio</u> n membr	ane	
postsynaptic specialization postsynaptic density			anc	
neuron to neuron synapse intrinsic comp	ponent of postsynaptic membra	ne		
	ruffle	membrane		
		leading edge	membrane	
integral component o	f postsynaptic membrane	<u>ru</u> ffle		
	cell le	eading edge
